

Integrated Course Design & Backward Design

Comparing the 12 steps of Integrated Course Design and the 3 Stages of Backward Design

Steps in Integrated Course Design

From *Creating Significant Learning Experiences*

Stages of Backward Design

From *Understanding by Design*

1. Situational Factors

2. Learning Goals

3. Feedback & Assessment

4. Teaching & Learning Activities

5. Integrate the component parts

6. Course Structure

7. Teaching Strategy

8. Overall Set of Learning Activities

9. Grading System

10. Possible Problems

11. Write Syllabus

12. Evaluation of Course and Teaching

1. Identify desired results

2. Determine acceptable evidence

3. Plan learning experiences and instruction
